

Tents In Motion

This combination tent and rotating inflatable has captured the attention of many around the globe. This dynamic patented rotational device allows an inflatable to spin horizontally 360 degrees every 6 to 8 seconds while inflated on top of a specially designed canopy.

Since visibility plays an important role in establishing customer awareness, our dual Tent and Rotating Inflatable design combined with a height of almost 30' creates a magnetic impression that will surely attract customers to your location.

From promoting your product to promoting the uniqueness of your business the Tents In Motion will certainly distinguish you from your competition. Tents In Motion will unquestionably revolutionize the tent industry and add a whole new dimension to any promotion or event.

We can custom design an inflatable and canopy to meet your specifications. From logos to digital printing on your tent or inflatable, our graphics department can handle all your needs.

Tents In Motion are also available on a rental basis. We carry an extensive collection of Theme and Logo Inflatables that can be placed on top of our specially designed canopy. This would make an ideal entrance piece for virtually any event!

Tents in Motion are currently available in varies sizes: Standard and Festival Style.

Inflatables range in size from 8ft. to 20ft. in height.

The demand for this product has been overwhelming, and supplies are limited. So act fast! For more information on availability and pricing, please call (626) 579-1772.
